ROOTSTOCK

MORE THAN PLANTS

Good light. A favorite record. Something green and growing.

Think about the best moments in your home. Maybe it's a Sunday morning with coffee and nowhere to be, or a late afternoon when the sun hits the floor just right and an album plays all the way through. Those moments don't happen by accident. They grow out of the spaces we create, and few things shape a space like a living plant.

Rootstock started with a simple idea: people don't just want plants. They want the feeling plants bring. A pothos trailing over a bookshelf makes a room feel settled. A satin pothos on the piano catches the light and gives you a reason to slow down. Plants soften hard edges, fill empty corners, and turn a house into a place you want to be.

That's what we sell. The plants are just how we get there.

ROOTED IN THE NEIGHBORHOOD

Rootstock is a small, local plant shop on Main Street. Our doors are open, there's usually a record spinning, and you're welcome to stay awhile. Browse the shelves, ask questions, or just sit in the sunlight for a few minutes. We'd rather you leave with the right plant than the most plants.

Every plant in our shop is chosen by hand. We look for healthy roots, strong growth, and character, the kind of plant that will settle into your home and keep growing with you. Our name comes from the gardening world: a rootstock is the strong foundation a plant grows from. We want to be that foundation for your space.

FIND YOUR PLANT

Not sure where to start? Think of it like picking a record. Every room has its own mood, and every plant has its own rhythm. Some love bright windows, some are happy in quiet corners, and some just want to trail. We can help you find the perfect vibe.

HOW WE HELP YOU GROW

Plant Matching

Tell us about your space, your light, and your schedule. We'll help you find a plant that fits your life, not just your shelf.

Repotting Bar

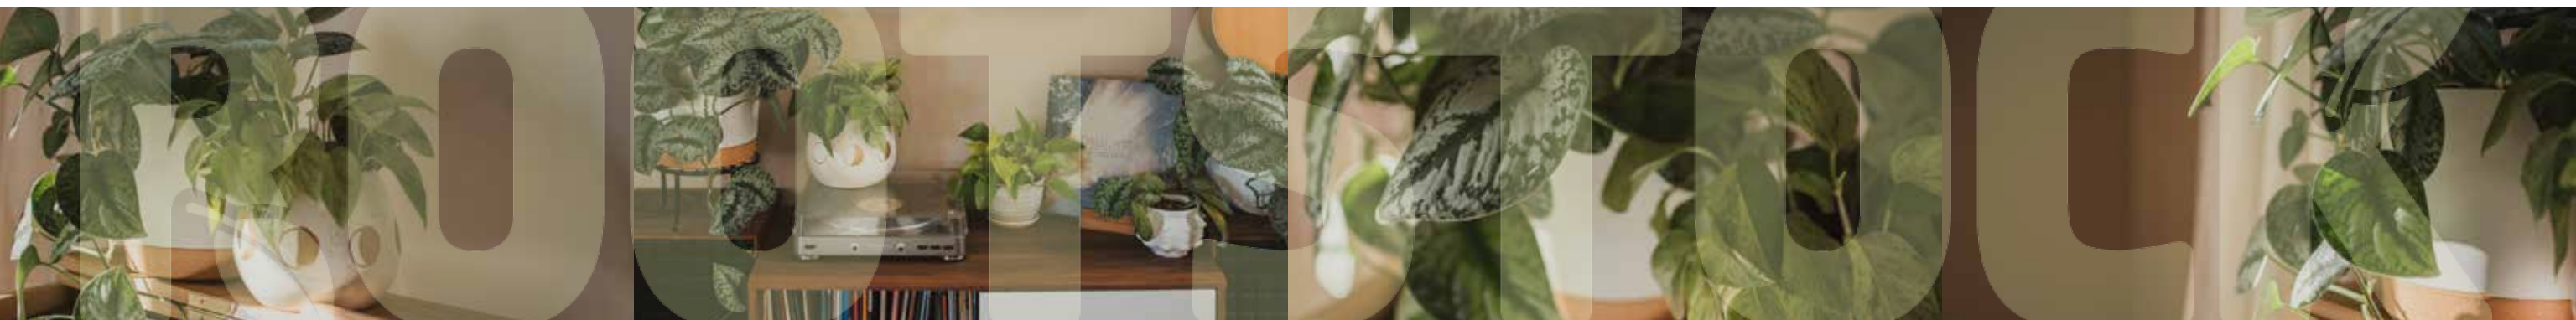

Pick out a pot from our collection and we'll repot your plant on the spot, with fresh soil and no mess at home. Bring in your own plants, too.

Care Advice

Yellow leaves? Leggy vines? Bring in a photo or the plant itself, and we'll help you figure out what it needs. No question is too small.

Cutting Exchange

Share a cutting, take a cutting. Our community shelf is a growing collection of propagations from neighbors' homes. Every plant has a story, and now it can be part of yours.

ROOTSTOCK
CULTIVATE
YOUR
VIBE

A warm, inviting living room corner. On the right, an acoustic guitar leans against a light-colored wall. In the center, large, bold text reads "ROOTSTOCK CULTIVATE YOUR VIBE". Below the text, a wooden shelf holds a silver turntable, a small potted plant, a vinyl record titled "DAUGHTER IF YOU LEAVE", and another small plant in a white mug-shaped pot. To the left, a large potted plant with variegated leaves sits on a black stand. A string of heart-shaped leaves hangs from the top left. The overall aesthetic is bohemian and cozy.
